Project Name	OptiCrop – AI Based Crop Recommendation System
Maximum Marks	4 Marks

Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I want to grow the most profitable crop. • Which crop is suitable for my soil? • I need quick and reliable recommendations.	• I want to grow the most profitable crop. • Which crop is suitable for my soil? • I need quick and reliable recommendations.
	Farmer
DOES • Tests soil parameters (N, P, K, pH). • Checks weather and rainfall conditions. • Uses the OptiCrop website to get crop recommendations.	FEELS • Confused about crop selection. • Worried about crop failure and financial loss. • Confident after receiving accurate AI recommendations.
