Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Difficulty coordinating team schedules due to different class timings.	Fixed a common meeting time in the evening and used WhatsApp for updates.
2	Integration issues between the Flask application and the machine learning model.	Debugged together, tested the model separately, and successfully integrated model.pkl with Flask.
3	GitHub merge conflicts and version control issues.	Followed proper Git workflow, committed changes regularly, and reviewed code before merging.
